Assistant Superintendent for Business

Julie C. Lyons
Director of Elementary Education

June 16, 2022

Dear Sixth Grade Parents,

In preparation for September of 2022, I would like to inform you that Hammonton School District has a required summer reading and math program for its students:

Reading Requirement

The book chosen for incoming 7th grade students is *Eleven*, by Tom Rogers. Students are expected to read this story, and upon their return to school in September, teachers will engage students in novel-related discussions and projects. In addition, students should be prepared to take a test on the book. A copy of the book has generously been provided to all of our graduates, courtesy of the Waterford Township Home & School Association. *(Please note that any student participating in HMS's Project Enrich this summer will read the book during the program.)*

Math Requirement

Students are also required to complete math summer assignments **online**, through IXL (www.ixl.com/signin/hammontonps). Currently, Waterford students **do not** have access to Hammonton's Google accounts. However, once HMS rolls over to the 22-23 school year online, **Math Supervisor Michael Walsh will notify your child with login credentials**. Because this may take some extra time, **students will have until September 23rd to complete the assignments**.

Should you have any further questions, please contact: Ms. Amanda Redrow (Supervisor of Language Arts/Social Studies): (609) 567-7007, ext. 287, aredrow@hammontonps.org, or Mr. Michael Walsh (Supervisor of Math/Science): (609) 567-7000, ext. 372, mwalsh@hammontonps.org.

Thank you for your support of the Waterford Township School District, and I wish your child continued success at Hammonton Middle School.

Sincerely,
Julie Lyons

Julie Lyons
Director of Elementary Education
